REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: no prior art of record, alone or in combination, teaches or fairly suggests a game ball having a molded carcass defining at least one inwardly extending channel, a one-piece seamless cover free of backing layer surrounding and bonded to the carcass without an adhesive, the cover having a thickness less than 0.5 mm and configured to conform to the contours of the outer surface such that the at least one inwardly extending channel of the carcass forms at least one elongate recess in an outer surface of the cover. The prior art of record shows some if not all of the structural components of the claimed invention. However, there is no reasonable motivation to combine them together to meet the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
